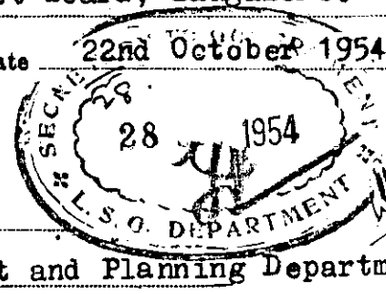
OFFICE OF

The Chairman, City Improvement Trust Board, Bangalore.

No. AC 624/54-55
Encls.

Date 22nd October 1954



To

The Secretary to Government,
Local Self Government and Planning Departments,
Bangalore.

Sir,

Subject:- Approval for incurring extra expenditure in conveying the Cast Iron Pipes to the Office from the Railway Station.

I write to state that the Scheme in connection with the sewage disposal in Vrishabhavathi Valley was sanctioned in your No.L.5721-28/I.T.B.30-53-9 dated 13-8-53. Accordingly orders -- were placed with the Mysore Iron and Steel Works, Bhadravathi, for the supply of pipes as the work was of an urgent nature. The supply was made during the months of May, June and July 1954. Meanwhile another Government Order No.L.17184/I.T.B.30-53-45 dated 19-3-54 accepting the tender of sewage disposal plant was received with certain modification in March 1954. The Sales Manager was informed to stop the further supply. The Cast Iron pipes that were ~~issu~~ received by that time had to be conveyed to Office from the Railway Station involving an expenditure of Rs.996/- and this was inevitable due to delay in starting the work and also the -- question of using the pipes for pumping sewage being undecided.

In these circumstances, I request you to kindly obtain approval of Government for incurring this extra conveyance charges of Rs.996/- The charges will be met out of Miscellaneous -- and unforseen charges in the sanctioned Estimate.

Yours faithfully,

(B.V. Vittal Murthy)
Chairman I/C.

E.No. 45] **GOVERNMENT OF MYSORE**

Telegram / phone

No. 7091/547 (Encls. one to fifty eight pages)

OFFICE OF THE BRANCH

The Chairman, City Improvement Trust Board, Bangalore.

Date 10th February 1955.

To

The Secretary to Government,
Education and Local Self Government Departments,
Bangalore.

Subject:- Extra expenditure incurred in conveying C.I.Pipes from Station Yard to Trust Board premises.

With reference to your letter No. dated from the Secretary to Government, Municipal Branch, regarding the above, I write to state as follows on the observations made therein.

(i) The number of C.I.pipes (24"dia.x16') received is 96 and their cost inclusive of Railway Freight, Bank Commission and transportation charges from Railway Station to Office premises is Rs.65,812-6-0.

(ii) This is a special circumstance in which the pipes had to be conveyed to the Office premises instead of to the workspot directly. After the scheme was sanctioned by Government in Order No.L.5721-28/ITB. 30-53-9 dated 13-8-53, an enquiry was sent to the Sales Manager, Mysore Iron and Steel Works, Bhadravathi, regarding the supply of the required size and quality of C.I.pipes for rising main as provided for in the scheme. In reply, the Sales Manager, intimated that it would take not less than six months to supply from date order. As the work ~~which~~ was considered urgent then, orders were placed with the Iron Works, for these pipes and due intimation was also sent to Government in this Office No.4249-50/53-4 dated 11-1-54.

The first consignment of pipes was received during May 1954 and subsequent consignments followed quickly and by June 1954, 96 C.I.pipes were received against 131pipes ordered. During the interval, Government Order accepting the tender for the main purification plant was received with some modifications as suggested by the Chief Engineer which involved a change in the original proposals. As this matter could not be settled quickly and it is still remaining undecided the pipes had to be conveyed

P.T.O

to the Office premises temporarily and the Sales Manager was asked by wire to suspend further supplies. This has no doubt involved in extra expenditure but it was unavoidable for reasons explained above and as such approval of Government is sought for. The pipes could not be left at the work-spot without a proper watch, as they were likely to be damaged.

(iii) In all cases of materials purchased by the Trust Board and kept in stores for departmental issue, the conveying charges will be debited to the respective sanctioned estimates of works for which such materials were purchased.

(iv) The only lorry which was in working order at the time these pipes were received was the small tipper lorry by which these pipes of 24" diameter and 16' length each could not be conveyed. This expenditure was inevitable.

The bill for Rs.996/- together with the entire file on this subject is herein sent as desired.

Yours faithfully,

D.R. Chennarudraiya

(D.R. Chennarudraiya)
Chairman.

Ksr.
